<https://events.zoom.us/j/1rbU9Z-LSTWkLkdPa0QmEg>

Building on the success of the previous two virtual Spring Conferences, the themes of AIAISC`23 will be **Detail & Storytelling**. Presenters will focus on describing a project through the evolution of key Details, or Storytelling as part of the design process. Join us for a global discussion about how architects craft the details of a building and tell stories through its design. This **3-day virtual conference** will bring you lectures, panel discussions, building tours and more from around the world, all underscored by the AIA's Framework for Design Excellence. Conference sessions will be hosted by the 7 International Chapters in Canada, Europe, Hong Kong, Japan, the Middle East, Shanghai, and the United Kingdom, as well as by some of our many members and Country Representatives around the world!

AIA International Spring Conference 2023

theme:

Detail & Storytelling

March 9th – 11th, 2023
