# Regional & Urban Design

an **AIA** Knowledge Community

## Free webinar: Design, health, and gentrification

Co-presented by AIA-ACSA Design & Health Research Consortium & RUDC  
June 27, 3-4pm ET

In this conversation about the intersection between design, health, and gentrification, **our three presenters** will discuss how the built environment can be used for positive health and social change. Manal will discuss the specific health implications of gentrification on those who are displaced. Rose and Kordae will share how visualizing a community can be a powerful way of informing the needs—health and

otherwise—our built environment must meet.

### How to avoid displacement in revitalizing neighborhoods

by Nikolaus Philipsen, FAIA

The holy grail of successful neighborhood revitalization is a vibrant community in which lower income homeowners and renters of all races can enjoy the increased quality of life, better services and increased wealth of revitalization without being booted in the process. How can we achieve this?

[Join the discussion >](#)

### Connect with Communities by Design

The Center for Communities by Design has launched a social media presence where AIA members can keep updated on program activities and resources. Recent highlights include short films on the [Narrative of Place](#) and [Cities](#). Find us on [Facebook](#), [Twitter](#), and [YouTube](#)—sign up to follow ongoing project work and learn about future resources.

## Opportunities

### **Call for submissions: 2018 AIA Upjohn Research Initiative Grant**

Deadline: September 1

Every year, the Upjohn program funds up to six research grants of \$15,000-\$30,000 per recipient. Projects must be completed in a 6- to 18-month period and research should relate to architectural knowledge that can be applied within the discipline. One grant will be dedicated to design and health principles.

## **Across the AIA**

### **New AIAU courses: Resilience and Adaptation online series**

Do you want to integrate resilience into the design services your firm offers? This exclusive multi-course series covers advanced topics including technical design application and design process application for hazard mitigation, resilience, and climate adaptation. You'll learn best practices for mitigating hazard risk, designing for shocks and stresses, and adapting to changing conditions.

### **AIA Public Awareness Campaign 2018: Blueprint for Better**

Research shows there is tremendous respect for the profession of architecture, but the public isn't always aware of what architects do or how their work affects society. This year's campaign, [Blueprint for Better](#), brings to life the role of architects as thought and action leaders in improving our cities, towns and neighborhoods. The film challenge will open June 18.

### **Jason Pettigrew Memorial Scholarship**

Deadline: July 11

The Jason Pettigrew Memorial ARE Scholarship recognizes the significant contributions of emerging professionals at early stages in their careers and helps defray the costs associated with the Architect Registration Examination.

[Learn more >](#)

### **Participate in an AIA focus group**

AIA's Product Strategy team is currently working on a variety of new websites, applications, and online tools. Are you interested in participating?
