ABOUT | DESIGN INTENTIONS

Mountain Park Health Center's (MPHC) mission is to **enrich lives** by bringing **accessible and affordable** healthcare to **underserved communities**. They have a unique ability to go beyond the exam room, becoming a local support system and community builder. MPHC find locations where services are needed, **redeveloping existing**, under-utilized real estate to provide **quality healthcare and promote wellness**. **This approach brings not only needed service, but the adaptive re-use helps to revitalize the site with a vibrant new campus filled with amenities beyond exam rooms.**
