2012 Professionals' Choice and Owners' Choice BIM Awards

Posted By: [Stephen Hagan](#) April 23, 2012 10:18 am
Posted In: [Technology in Architectural Practice](#)

Tags/Keywords: [Add/Edit Tags](#)
Activities : [Webinars](#) **Publications :** [Presentations](#) **Knowledge Communities (cross tag) :** [Corporate Architects and Facility Management](#), [Technology in Architectural Practice](#)

Description

Presented by BIMForum, COAA and AIA TAP, the webinar presents the five AIA TAP 2012 BIM Award winners in Category B (Process Innovation Using BIM), competing for the 2012 Professionals' Choice BIM Award.

- Alta Bates Summit Medical Center - Patient Care Pavilion
- Edith Green-Wendell Wyatt Federal Building Modernization
- Institute for Systems Biology
- Maricopa County South Court Tower
- Warrior in Transition Barracks - Fort Carson, CO

[Register now](#) for the April 15, 2012 webinar. Attend and earn 1 CEH.

Visit this page after the webinar to view a recording of the webinar and download a copy of the Q&A.

Monthly Townhall Webinars

March Webinar

- BIM for Small Projects II: Case Studies in Innovative BIM Use
 - To Download Presentation - <http://bit.ly/yLgcZf>

The screenshot shows the AIA KnowledgeNet website interface. At the top, there's a navigation bar with links like TAP Home, My Profile, Communities, Directory, Resources, Discussions, Events, and Blogs. A search bar is also present. The main content area displays a resource titled "BIM for Small Projects II: Case Studies in Innovative BIM Use by Small Firms". It includes a post by Jeffrey Ouellette from February 23, 2012, with tags for Technology in Architectural Practice. The description states it's the second in a series of webinars. Below the text is a video player showing a presentation titled "BIM at SALA Architects". To the right of the video, there are action buttons like "Add to Favorite", "Add To RSS Feeds", "Share", "Permalink", "Flag as Inappropriate", "Edit", and "Delete". A statistics box shows 0 Favorited, 76 Views, 3 Files, 0 Shares, and 584 Downloads. At the bottom, there's an "Attachment(s)" section with links to download presentations and questions answered.

BIM for Small Projects II: Case Studies in Innovative BIM Use by Small Firms

Posted By: [Jeffrey Ouellette](#) February 23, 2012 4:31 pm
Posted In: [Technology in Architectural Practice](#)

Tags/Keywords:
Activities : [Webinars](#) **Publications :** [Presentations](#) **Knowledge Communities (cross tag) :** [Small Firm Round Table](#), [Small Project Practitioners](#), [Technology in Architectural Practice](#)

Description

This is the second in the ongoing series "BIM for Small Projects." [View the first webinar.](#)

There is a widely shared perception that small firms and sole practitioners cannot take advantage of Building Information Modeling due to such factors as its cost, complexity, training time, and productivity for small projects. These case studies, presented by architects who work in small firms or as sole practitioners, will demonstrate how BIM has enhanced their practices and enabled them to create excellent projects.

BIG BIM Bang – Enterprise BIM and BIG Data – Sharing Data

Posted By: [Kimon Onuma](#) March 19, 2012 2:39 pm
Posted In: [Technology in Architectural Practice](#)
Tags/Keywords: [Activities](#) : [Webinars](#) [Publications](#) : [Presentations](#) [User-defined tags](#) : [BIM](#), [cobie](#), [gis](#), [tap](#) [Knowledge Communities \(cross tag\)](#) : [Project Delivery Knowledge Community](#), [Technology in Architectural Practice](#)

Description

The building industry and architecture is going through a transformation. The sharing of data in an interoperable format enables collaboration across multiple teams. This webinar will demonstrate how project data from two owners, the Foundation for California Community Colleges and Kaiser Permanente, share project data from early design, through construction and into the life-cycle. Sharing project data is commonly seen as a challenge, but the reality is that it is possible to move data between BIM and other tools and effectively use it on projects today. Learn how the building industry can effectively use big data and BIM. Presenters will include, architects, builders, engineers and owners. In a recent BIMstorm, 155 teams used over 35 tools to collaborate with BIM. This webinar will show some of the results.

This April 13, 2012 webinar addressed the following technology topics: Building Information Modeling (BIM), Geographic Information Systems (GIS), Construction Operations Building Information Exchange (COBie), Facility Management and Operations, Web Services, BIG Data

The diagram illustrates the flow of project data across various stages and projects. It shows a timeline from 'FINAL DESIGN' through 'CONSTRUCTION', 'COMMISSIONING', 'OPERATIONS', and 'MAINTENANCE'. Projects include '3,4,5,6,7 - California Community College', '3 - Miracosta Master Plan', '4,5,6 - Miracosta Projects', '7 - LACCD Mission College - COBie', '1 - Kaiser Permanente', and '2 - Kaiser Permanente Glenlake'. A central play button icon indicates a video presentation.

About TAP

The AIA Technology in Architectural Practice Knowledge Community (TAP) serves as a resource for AIA members, the profession, and the public in the deployment of computer technology in the practice of architecture. Technology in Architectural Practice monitors the development of computer technology and its impact on architecture practice and the entire building life cycle, including design, construction, facility management, and retirement or reuse.

The screenshot shows the AIA KnowledgeNet website. At the top, there is a navigation bar with links: TAP Home, My Profile, Communities, Directory, Resources, Discussions, Events, Blogs, and a Search box. A user profile for Brian is visible in the top right corner. The main content area is titled "Local TAP" and contains a list of local AIA chapter groups/committees/forums. The list is organized by state abbreviation (AK, AL, AR, AZ, CA) and includes contact information for each group. For example, the AIA Arizona Phoenix Metro Chapter - VDC Committee is listed with contact information for Russ Sanders. The AIA/LA TAP group is listed with contact information for Glenn Hickman, Frank Mihelcic, and Junaid Javed. The Los Angeles Design Technology Forum is listed with contact information for Marty Doscher, Ren Prentice, Dennis Shelden, Randy Jefferson, and Kurt Komraus. The San Francisco Digital Design group is listed with contact information for Mario Guttman and Maria Ushijima.
