Who we are

The mission of the AIA **Design for Aging** (DFA) Knowledge Community is to foster design innovation and disseminate knowledge necessary to enhance the built environment and quality of life for an aging society. This includes relevant research on characteristics, planning and costs associated with innovative design for aging. In addition, DFA provides outcome data on the value of these design solutions and environments.

COVID resources

Strategies for Safer Senior Living Communities
This resource includes strategies for dining facilities, amenity spaces, and individual units. [Download >](#)

an **AIA** Knowledge Community

Design for Aging Communications Survey

The AIA Design for Aging (DFA) Knowledge Community leadership would appreciate your participation in a short survey to help us better understand member needs and value. Please note that the AIA adheres to professional market research survey standards, and will not include any identifying information about your individual results and will analyze all results in the aggregate.

The information collected will help shape the DFA programs and direction. Thank you for your time and assistance.

Continuing education credits

Earn 1 AIA LU/HSW

This program is registered with the AIA/CES for continuing professional education. As such, it does not include content that may be deemed or construed to constitute approval, sponsorship or endorsement by AIA of any method, product, service, enterprise or organization.

The statements expressed by speakers, panelists, and other participants reflect their own views and do not necessarily reflect the views or positions of The American Institute of Architects, or of AIA components, or those of their respective officers, directors, members, employees, or other organizations, groups or individuals associated with them.
