

What are various **impacts** of Sustainable Justice Principles applied to the **public process** from the **community, practitioner, and owner's perspective**?

What are the **Sustainable Justice Principles**? Use the checklist for the evolving **rating system**.

The rating system is based on **4 scales**:

Justice system leadership is partnering at all societal levels with community based interests. Those partnerships must be identified and cultivated.

SOCIAL IMPACT BONDS *give incentives for private investments that leads to improvements. Once innovation is proven successful, the private investor is repaid with public funds.*

Alternatives and a focused assessment at a local level can redirect probation initiatives toward solutions more sustainable and beneficial to communities
