Chapter Updates?

2021 Goal:

We **ENABLE** transformation.

COTE will help architects transform their practices for climate action and climate justice.

1. Focus COTE meeting topics on strategies that **ENABLE** transformation – Provide resources for Architectural firms to create higher performance buildings

- a. Joining the 2030 Commitment - Outreach
- b. How to leverage the 2030 Challenge to create awareness in your firm.
- c. Conduct a workshop for firms to sign-up for the 2030 commitment, review strategies for other sustainable efforts.
- d. Collaboration with the Atlanta hub of the Carbon Leadership Forum.
- e. Identify other strategies to help firms target and meet sustainable design goals within their firm.

Q3
focus

2. Provide COTE meeting content to focus on Sustainable Justice.

- a. August 13th presentation City of Atlanta Office of Watershed Protection on Innovative Stormwater Management

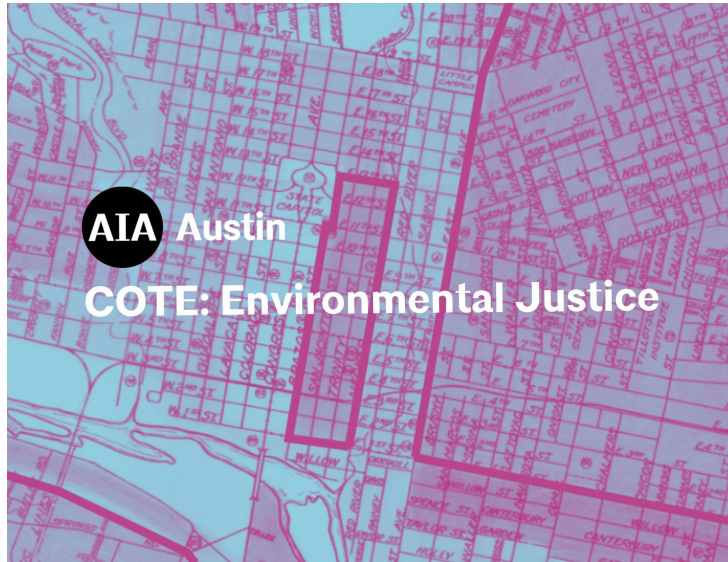

COTE®: Advancing Urban Resilience through Innovative Stormwater Management

Friday, August 13, 2021

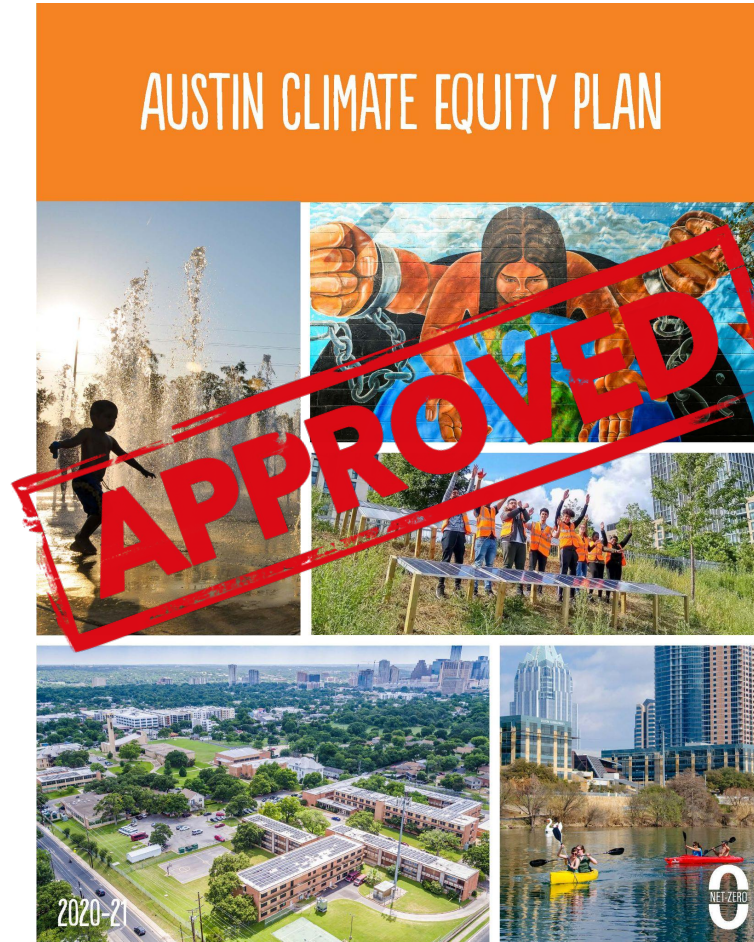

RSVP

2021 - CLIMATE EQUITY INTEGRATION

- **SESSION 1: Environmental Justice in the Chemical Age**
- **SESSION 2: Acknowledging the Past, Envisioning the Future**
- **SESSION 3: Environmental Justice in Texas**

- **Sustainable Buildings**
- **Transportation & Land Use**
- **Transportation Electrification**
- **Food & Product Consumption**
- **Natural Systems**

TRANSITIONING TO 2022

New Leadership!

**Ashley Gryzwa,
Chair**

**Josh Leger,
Chair-Elect**

New Awards Standards!

The table displays the Common App for Design Excellence (COTE) 2022 award standards. It includes a radar chart at the top showing various criteria like Integration, Leadership, Innovation, and others. The table is organized into sections: PROJECT INFORMATION, Awardee & Firm, Project Description, Design for Integration, Design for Equitable Communities, and Design for Resilience. Each section contains specific criteria and a 'Score' column.

New Collaborations!

Chapter Updates?

Chapter Updates?

PARK(ing) Day parklet in Downtown Syracuse

Education

Offering lectures on embodied carbon and facilitating a broader implementation of AIA 2030 programs and resources.

Advocacy

Supporting local municipalities as they consider sustainable infrastructure - sharing resources and connecting them with well suited NGOs.

Activity

Offering more volunteer opportunities for members including PARK(ing) Day design competition and parklet construction, tree plantings, Earth Day clean-up, guided tours of net-zero buildings in our region.

Chapter Updates?

2030 Series

Ongoing Programming working through the AIA's 2030 Series.

Looking to create derivative programming for next year based on this

Framework for Design Excellence

Pivoting programming to be more technical and supportive of the 2030 Commitment

2022 Planning

Looking to build on 2030 Series and dive deep into technical issues around things like Embodied Carbon, Energy Modeling, etc.

Chapter Updates?

AIA Long Beach / South Bay

Southern California chapter -
Located between AIA Los Angeles and AIA Orange
County

3000+ members

Local COTE established Q3 of 2020

COTE MISSION STATEMENT:

AIA COTE LBSB supports member communities in achieving a resilient net zero future by promoting equitable and sustainable building practices, advocating for environmental and energy related policy, and raising public awareness around issues of climate change and effects of a more sustainable built environment on public health, safety, and well being.

Pillar 1: Practice

Supporting our member communities in achieving a resilient net zero future

Pillar 2: Policy

Advocating for policy changes towards a more resilient and energy efficient built environment

Pillar 3: Public

Educating public on sustainable best practices, encouraging engagement with built environment

1

2030 COMMITMENT

1. Improve percentage of signatory firms reporting data.
2. Mentor non-signatory firms and new signatory firms in the South Bay region to reach 2030 goals.
3. Provide high quality educational materials and mentorship to reach 2030 targets.

Led by: Keith Hempel and Alina Tompert

2

AIA DESIGN AWARDS

1. Introduction of COTE Award category for AIA LB/SB 2021 Awards Program
2. Working with Corey Squire to introduce the Common App for COTE Award Submissions.
3. Partnering with Southern California Edison for COTE Award technical review and citation for exemplary performance in decarbonization.

Led by: Keith Hempel and Alina Tompert

3

ELECTRIFICATION

1. Work with local municipalities on adopting a reach code.
2. Work with local municipalities to take steps towards electrification, phasing out gas, incentivising electric over gas.

Led by: Alan Pullman and Nick Brown

4

EDUCATION

1. Present COTE as partner to local municipalities to speak to matters of sustainability.
2. Provide support as needed, expertise on sustainability in the built environment.
3. Partnering with Southern California Edison for education sessions in 2021 focusing on topics including building performance, electrification, and rapid decarbonization.

Led by: Kellen Spafford and Keith Hempel

A Symposium on Climate,
Equity, Energy Efficiency
& Carbon-Neutral Design

NOVEMBER 11-12 2021

NOVEMBER 11

Part I: INTRODUCTION and KEYNOTE

12:30-1:20pm CT

Redefining VALUE - Kira Gould

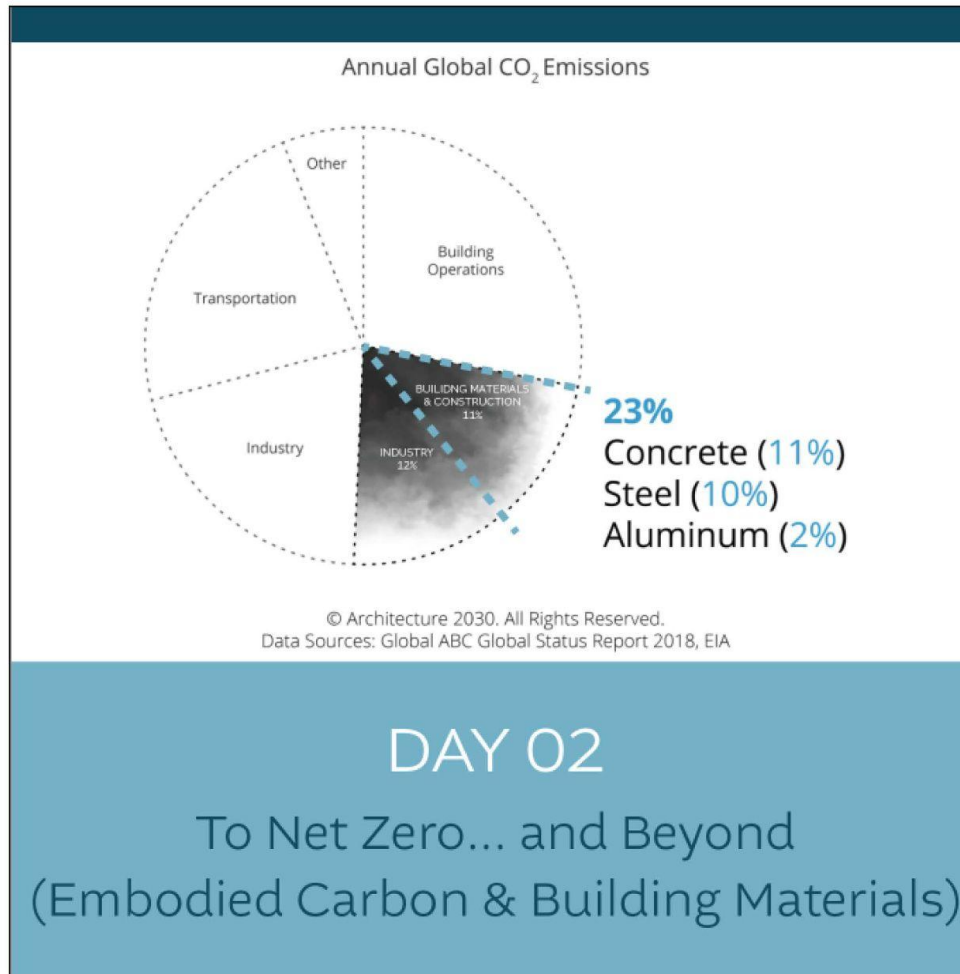

From the Climate Crisis to climate in our lives, there are impacts everywhere and impacts coming. We're learning our role as the built environment community in the arc of progress, and we know what we can do collectively. In **Redefining VALUE**, we can determine the value of design and its relationship to climate, examine who is at the table, and work toward collective action.

Part II: PRACTICAL COLLABORATION & ACTION

1:25-2:40CT

Part III: WORKING GROUP SESSIONS

2:50-4:10CT

NOVEMBER 12

Part I: INTRODUCTION and KEYNOTE
12:30-1:15pm CT

We're winning slowly. How do we win faster?
Z Smith

Global poverty is shrinking, life expectancy is rising, more people have access to education and health care than ever before, and carbon emissions in many countries are falling. We're winning. But climate change and species loss is accelerating. We have to bring about the transformation to a sustainable world faster--and architects are in a surprisingly powerful place, able to nudge the aim of the giant fire hose of money spent each year on the built environment in ways that make the world more healthy and more just, while drastically lowering Carbon emissions. Let's go!

Part II: Panel I
SOLAR AND ACCESS TO RESILIENT POWER
1:20-2:15pm CT

Part III: Panel 2
BUT WAIT, THERE'S MORE! MATERIALS MATTER: EMBODIED CARBON
2:20-3:15pm CT

Part IV:
WORKING GROUP SESSIONS
3:25-4:35pm CT

 <p>PANEL MODERATOR Dru Lamb USGBC Louisiana Past President</p>	<p>We will organize and contextualize resources in conjunction with the four parts of the City of New Orleans strategy. We will leverage the wealth of global knowledge in a framework of localized action and to facilitate multidisciplinary conversations and collaboration within the field of architecture and beyond.</p> <p>OUR WORK</p> 	 <p>PANEL MODERATOR Elizabeth Livingston de Calderon Tulane Environmental Law Clinic</p>
 <p>KEYNOTE SPEAKER We're Winning Slowly. How Can We Win Faster? Z Smith EskeWdumezRipple</p>	<p>OUR MISSION</p> <p>We aim to transform the practice of Architecture in the New Orleans area in a way that is holistic, firm-wide, project based, and data-driven. By prioritizing energy performance, participating firms can more easily work toward carbon neutral buildings, developments and major renovations by 2030.</p>	 <p>KEYNOTE SPEAKER Redefining VALUE: Building Resilience to Collectively Thrive Kira Gould Kira Gould CONNECT</p>

Anne Shellum and Clare Miflin will both be moving on at end of year - new Co-Chairs for 2022 to be announced soon!

Subcommittees	Collaborators	Activities
Awards Committee	AIANY Chapter & Design Awards	AIANY Design Awards made Common App mandatory for second year. Not all filled in properly the first year Technical Review process for Awards Jury, modeled on SF and CA.
Integration Series	ASHRAE, Building Energy Exchange & USGBC	Building electrification series, including focus on demand flexibility, training, and code updates.
2030 Working Group	AIA Philly	Monthly round tables - Arch. 2030 presentation/training followed by open discussion
Policy	AIANY Policy Director	Policy subcommittee works directly with AIANY to advocate at city, state, fed. level. Fossil fuel ban bill, low embodied carbon concrete bill at NYS, training for retrofits. Put Waste to Work advocacy campaign to get trash bags off streets and compost into soils. Zero Waste focused. New Mayor in NYC - looking to influence agenda.
Social Equity		3 part series – 1. Dialog: Politics of Community Engagement – Summer 2020 2. Primer: Community Engagement and Community-based Design – Feb 2021 3. Workshop: How to Do successful Community-based Participatory Design

Subcommittees	Collaborators	Activities
Material Health & Circularity	Circular City Week	Healthy materials for affordable housing Building an Irresistible Circular Society, Brick by Brick
Embodied Carbon		Developing policy toolkits with Open Air Collective. Developing specs for NYC Mayor's office - concrete GWP. Also NY Chapter of Carbon Leadership Forum
Energy Technology & Building Science		Video tour of passive house building
Design for Ecology		3 part series on Urban Agriculture - focused on community led Urban Ag
Historic Buildings	Historic Building Committee	Annual Historic Preservation and Carbon Reduction event. This year focused on applied trades and training underserved populations
Education Subcommittee (New)		Focused on progressing climate-focused curriculum. Working with Academia/Architectural community to identify best areas of focus.

2030 WORKING GROUP

BREAKING DOWN BARRIERS TO BUILDING SCIENCE

You're invited to join AIA Philadelphia Committee on the Environment and AIANY Committee on the Environment to learn more about the 2030 Commitment, to share knowledge, and to improve practice. Architects have an important role to play in addressing the climate crisis. In Philadelphia, buildings alone contribute to more than 70% of the city's greenhouse gas emissions. In Part 3 of the 2030 Working Group, we will focus on leveraging environmental design analysis to simulate building performance and improve building design, paving the road to net zero in 2030.

2ND MONDAY EACH MONTH

Day 3: Environmental Justice Friday, December 10 12-5 PM

The Climate Crisis impacts all of us. However, lower-income communities and communities of color disproportionately bear the brunt of environmental hazards and toxins threatening public health. Join us for a keynote program presented by Antoine Bryant, the new director of Planning and Development for the City of Detroit. Bryant previously served as business development and project manager for architecture firm Moody Nolan in Houston, where he worked on projects in historic African-American neighborhoods.

Fauzia Sadiq Garcia is a registered architect, educator and artist harnessing technological advancements to challenge traditional use of materials and construction methods while advocating for a multidisciplinary approach to design that can influence new methodologies. Her research focuses on high-performance building envelopes, evaluating the multiple facets of exterior cladding to shift beyond aesthetic functions to a more holistic approach for cladding.

Sub-committee updates

- **Education**

- **Mass Timber Technologies seminar**
 - Joint venture with the GBA, Passive House PA, and AIA Pittsburgh.
 - Bill Broderick of Rothoblass is developing the presentation.
 - Overview of mass timber with case studies and a deep dive into the technicalities of mass timber.
 - Tentatively a 3-hour, in-person seminar on December 7.

- **Tall/Mass Timber**

- **2021 goal** - collect research and data into the value and challenges of tall/mass timber in Pennsylvania.

- **Deconstruction & Material Reuse**

- **2021 goal** - collect information, case studies, and resources regarding reclaimed/salvaged materials.
- Meeting with the consultancy firm Metabolic to review their first draft of the Urban Mining Assessment.

Seminars and events in development for 2022

- Deconstructing Deconstruction - Part 2
- Primer on the various certification programs geared towards building owners and developers. Possible joint venture with the GBA.
- Pennsylvania Climate Action Plan. Currently assessing the report and identifying what topics to present and who to would be the target audience.

The Imperative of Climate Action Now! Understanding Impacts and Taking Personal Responsibility

The annual AIAO COTE Green Champion Summit brings to you sustainability leaders from around the region and country. This year we gather to discuss the imperative for action now because it is increasingly clear that we are all impacted by climate change, though the impacts vary across communities. We know that those who are most vulnerable are people of color and low income people.

Our keynote speaker, Hop Hopkins, of the Sierra Club, will discuss the realities of disposable land within our culture and how this results in the idea of disposable people – a timely topic given we will gather on Indigenous Peoples Day. Vivek Shandas will share research on how Oregon's recent heat wave disproportionately impacted BIPOC communities.

We will then shift the conversation to consider our collective responsibility as professionals in the design and building community to take action. Naomi Cole will share her family's journey in climate responsibility and decarbonization, and Karina Hershberg will explain how these actions have a cumulative and measurable impact. We will brainstorm additional opportunities to address climate change and commit to individual actions to minimize our personal impacts and help prevent undue burden on vulnerable communities.

DDS - Net Zero Emerging Leaders Internship Panel Discussion

Wednesday, November 17, 2021
5:00 PM – 6:00 PM

This panel discussion brings together mentors from firms participating in the Net Zero Emerging Leaders program to share sustainable design lessons learned, strategies for meaningful remote internships, insights into future innovative research, and advice for others who may be considering participating in the future.

Each year, the Energy Trust of Oregon selects a small group of Oregon architecture and engineering firms to participate in the Net Zero Emerging Leaders program, which provides grants to employ students for a 12-week internship. The interns support each firm's AIA 2030 Commitment - an industry pledge to transform architectural standards toward net-zero buildings.

This AIA Oregon Digital Design Series will include a 60-minute special panel webinar with discussions from past mentors and mentees of the Energy Trust of Oregon Net Zero Emerging Leader grant program. The panelists will present on the different approaches each firm took to develop and implement a reporting process to follow through early design to post-occupancy.

Webinar participants will learn how the mentorship process helped support each firm's AIA 2030 Commitment—an industry pledge to transform architectural standards toward high-performance building. Additionally, the mentees will share their knowledge gained on the integrated design process and how the internship has helped prepare them to enter the workforce, inspired and ready to design high-performance buildings for the future.

Please join us and get to know Oregon's next generation of designers and mentors leading the way to a net-zero energy future.

Upcoming: Green Champion Summit Follow-up: Commitment to Action

DE-MYSTIFYING THE COMMON APP: HONORING WHAT WE VALUE

AUGUST SESSION

The Committee on the Environment (COTE) Award recognizes projects that embody a holistic vision of design excellence. Beautiful projects that support human health, vibrant communities, and ecological resilience are considered for this honor.

Beginning in 2019, AIA San Antonio made a commitment that ALL projects submitted for design award consideration would also be eligible for the COTE Award. The new project data sheet, known as The Common App, is based on the AIA COTE Framework for Sustainability, and will be used by the 2020 Design Awards Jury as the criteria for selection.

Join the AIA San Antonio COTE committee for a tutorial on how to complete the Project Data sheet. COTE Committee members, including one of the Common Apps authors, Corey Squire, AIA, will explain the features, answer questions, and help guide you through the process of entering your project's information.

This course is highly recommended for your marketing and graphics staff to learn more about the information being requested in preparation for your 2020 Place Entries.

Non-Members: \$10

Fellows Panel

AIA Framework for Design Excellence

~~MARCH 30, 2021 | 12:00 Noon - 1:00 PM~~

Join San Antonio COTE and three AIA Fellows from some of San Antonio's most prominent firms for a panel discussion about the AIA Framework for Design Excellence and the integration of sustainable design practice.

Learning Objectives

Identify the 10 principles of the AIA's Framework for Design Excellence

Learn how leading practitioners are utilizing these principles in their practice

Learn how sustainability has changed design practice over the past few decades

Learn how AIA Fellows are equipping the next generation of architects through mentorship

Virtual Forum:

A 6-Part Series on Healthy Materials

**Now is the time to
reconsider the products
of our built environment.**

Featuring keynote **Malo Hutson**
and speakers from

- Buro Happold
- Carbon Leadership Forum
- MASS Design
- The Living

Series Start: May 24th, 2021 (@ 5pm PDT)

Series Length: May - Aug (6 Episodes)

Keynote + Introduction.....05/24/2021

Pt.1 Structural.....06/7/2021*

Pt.2 Enclosure.....06/21/2021

Pt.3 Interiors.....07/12/2021

Pt.4 Building Systems.....07/19/2021

Pt.5 Tomorrow's Materials.....08/2/2021

*starts at 12:00pm

Past & Upcoming Events:

- Reach Codes/Gas Bans: What Architects Need to know. Apr '21
- PEC Water Conservation Showcase. Apr '21 w/PGE PEC
- Electric Kitchens Have Arrived! May '21
- Healthy Materials - 6 part Series. May, June, July '21 w/CLF Bay Area
- Green Specs: "The Why, The How, Do it Now". Jun '21 w/MB COTE
- The Great Reset Series: Part 1. Jul '21 - Parts 2 & 3 upcoming
