

# U.S. Commercial Service Webinar

## Design & Construction Sector Opportunities in Russia

### Discover International Sales Opportunities

The U.S. Commercial Service, the trade promotion arm of the U.S. Department of Commerce's International Trade Administration, is hosting a FREE webinar to promote opportunities for U.S. companies in the design, building materials, and construction sector in Russia.

The construction industry in Russia grew by 10% in 2012, and continues to grow steadily due to significant private and public investment in commercial, industrial, residential, and infrastructure projects. Further demand is being fueled by construction and renovation projects related to Russia's hosting of the Winter Olympics in 2014 and the FIFA World Cup in 2018.

### Informational Webinar

This FREE webinar will detail the opportunities that exist for motivated U.S. companies in the Russian market, and the ways in which the U.S. Department of Commerce can provide assistance. The webinar will also discuss MosBuild 2014, the planned U.S. Pavilion, and how U.S. companies can participate.

**MosBuild 2014:** MosBuild represents one of the largest construction industry shows in Europe. In 2013, MosBuild brought together 2,309 exhibitors from 43 countries, and over 100,000 visitors from Russia and abroad. In addition to exhibitions, MosBuild also includes an extensive program of events attended by CEOs of major companies, members of the Russian Government and directors of public organizations. It represents the premier opportunity to get connected to this booming market.

**U.S. Pavilion at MosBuild 2014:** The U.S. Department of Commerce will staff a U.S. Pavilion during the first week of MosBuild 2014, April 1-4 with space for 8 companies. For more information, contact Michael Marangell at Michael.Marangell@trade.gov
