Meridian Center for Health
Seattle, Washington

ABOUT | DESIGN INTENTIONS

Partially funded by a federal grant, the Meridian Center for Health is a first of its kind: an integrated, one-stop model for health treatment and prevention for underserved Seattle-area residents. Uniting three health organizations under the same roof, the center provides low-to-no-cost medical, dental, and mental health services for adults and children. Design elements include an open-floor plan, a dramatic feature stair in the lobby, and a range of team and community spaces that remain available for neighborhood organizations after hours. The Center is tracking to receive LEED Gold certification.
