an **AIA** Knowledge Community

Case Study

As part of the Academy's multi-channel, on-line approach, these sessions are intended to introduce members of healthcare-centric practices, in all stages of professional development, to case studies of relevant content, providing access to data and critical analysis of elements key to the project's success.

Compliance Statement

“AIA Knowledge” is a Registered Provider with The American Institute of Architects Continuing Education Systems (AIA/CES). Credit(s) earned on completion of this program will be reported to AIA/CES for AIA members. Certificates of Completion for both AIA members and non-AIA members are available upon special request.

This program is registered with AIA/CES for continuing professional education. As such, it does not include content that may be deemed or construed to be an approval or endorsement by the AIA of any material of construction or any method or manner of handling, using, distributing, or dealing in any material or product.

AIA/CES Reporting Details

Your CES credits from this event will be automatically reported given your engaged attendance during the entire event today.

If you are watching in a group setting and have multiple people in the room, please make sure the person who registered for the course, includes your name and AIA member number in their post webinar survey.

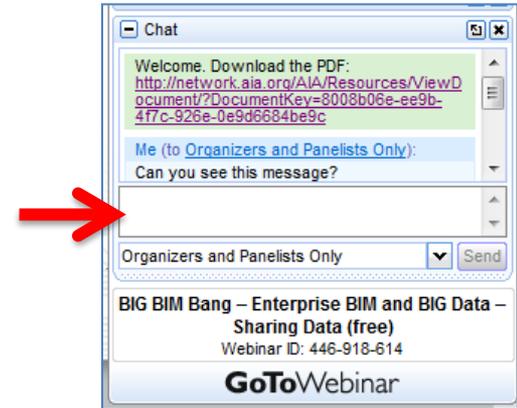

We encourage all registrants to fill out the post webinar survey. Your feedback is important and informs us of future webinar topics to better meet listener needs.

Questions?

Submit a question to the moderator via the chat box.

Content-related questions will be answered during the Q&A portion, at the end of the presentation, as time allows. Any questions not answered during Q&A, will be answered and posted online within two (2) weeks.

Tech support questions will be answered by AIA staff promptly.

Project Background

Project Timeline

Jan 2016

Design Team
Selected

Owners: **SSM Health, Saint Louis University**
Architecture, Interior Design, Landscape Architecture:
Lawrence Group
Architecture, Planning, Specialty Lighting: **HGA**
Civil: **David Mason & Associates**
Structural: **KPFF**
MEP/FP: **IMEG**

Program Management, Equipment: **Northstar**
Construction: **Alberici**
Mechanical/HVAC: **Murphy, C&R**
Electrical: **Guarantee, Kaiser**
Plumbing: **Corrigan, Franklin**
Fire Protection: **Ahern**

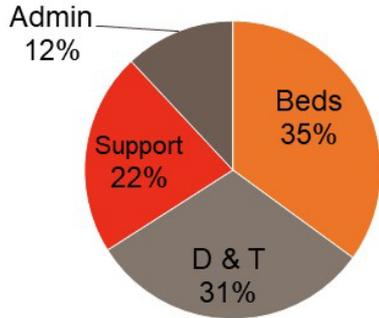

Program Size

Hospital	617,980 BGSF
<u>ACC</u>	<u>207,564 BGSF</u>
Total	825,544 BGSF

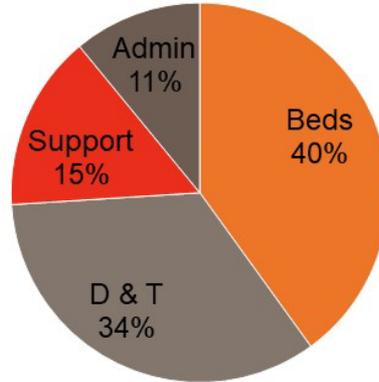

Program Size

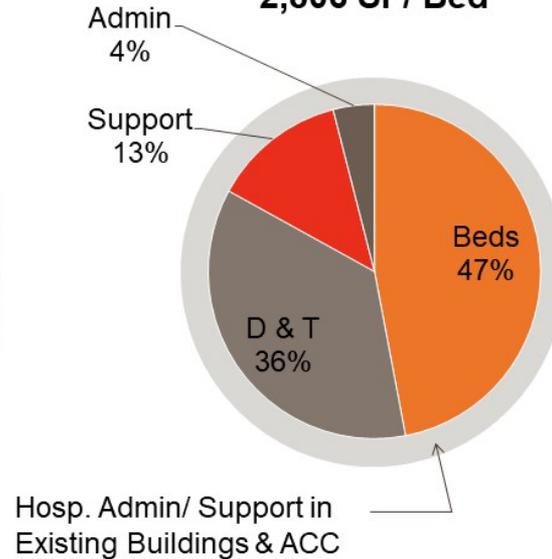

**Community Hospital
2,000 SF/ Bed**

**Academic
3,000 SF/ Bed**

**New Hospital
2,806 SF/ Bed**

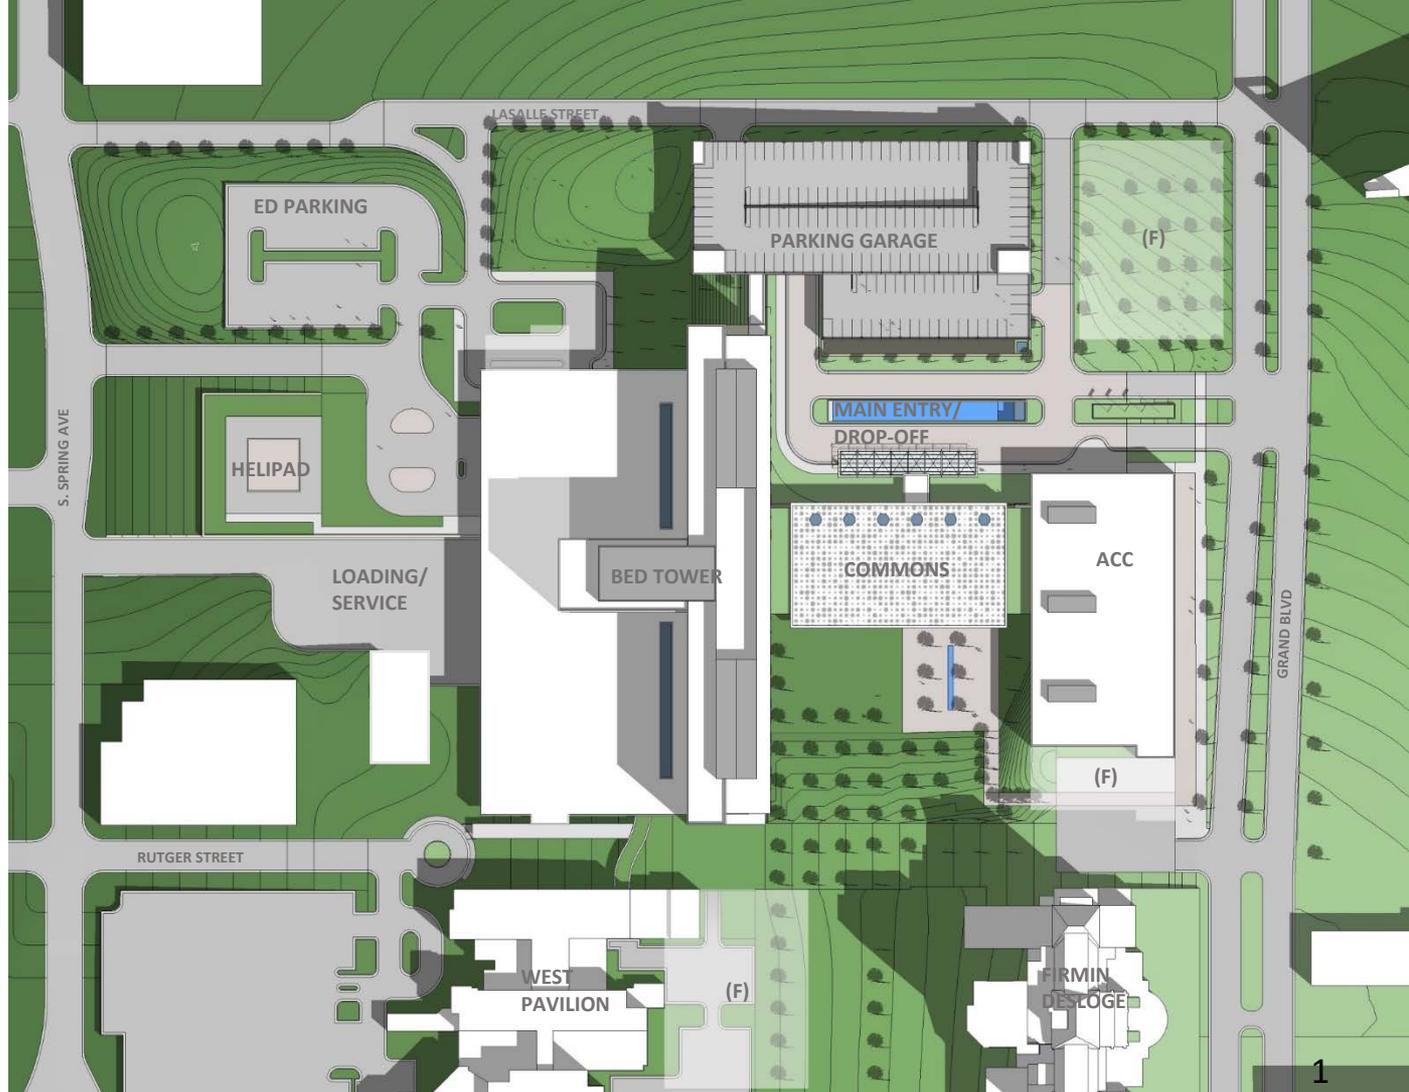

Academic Medical Center

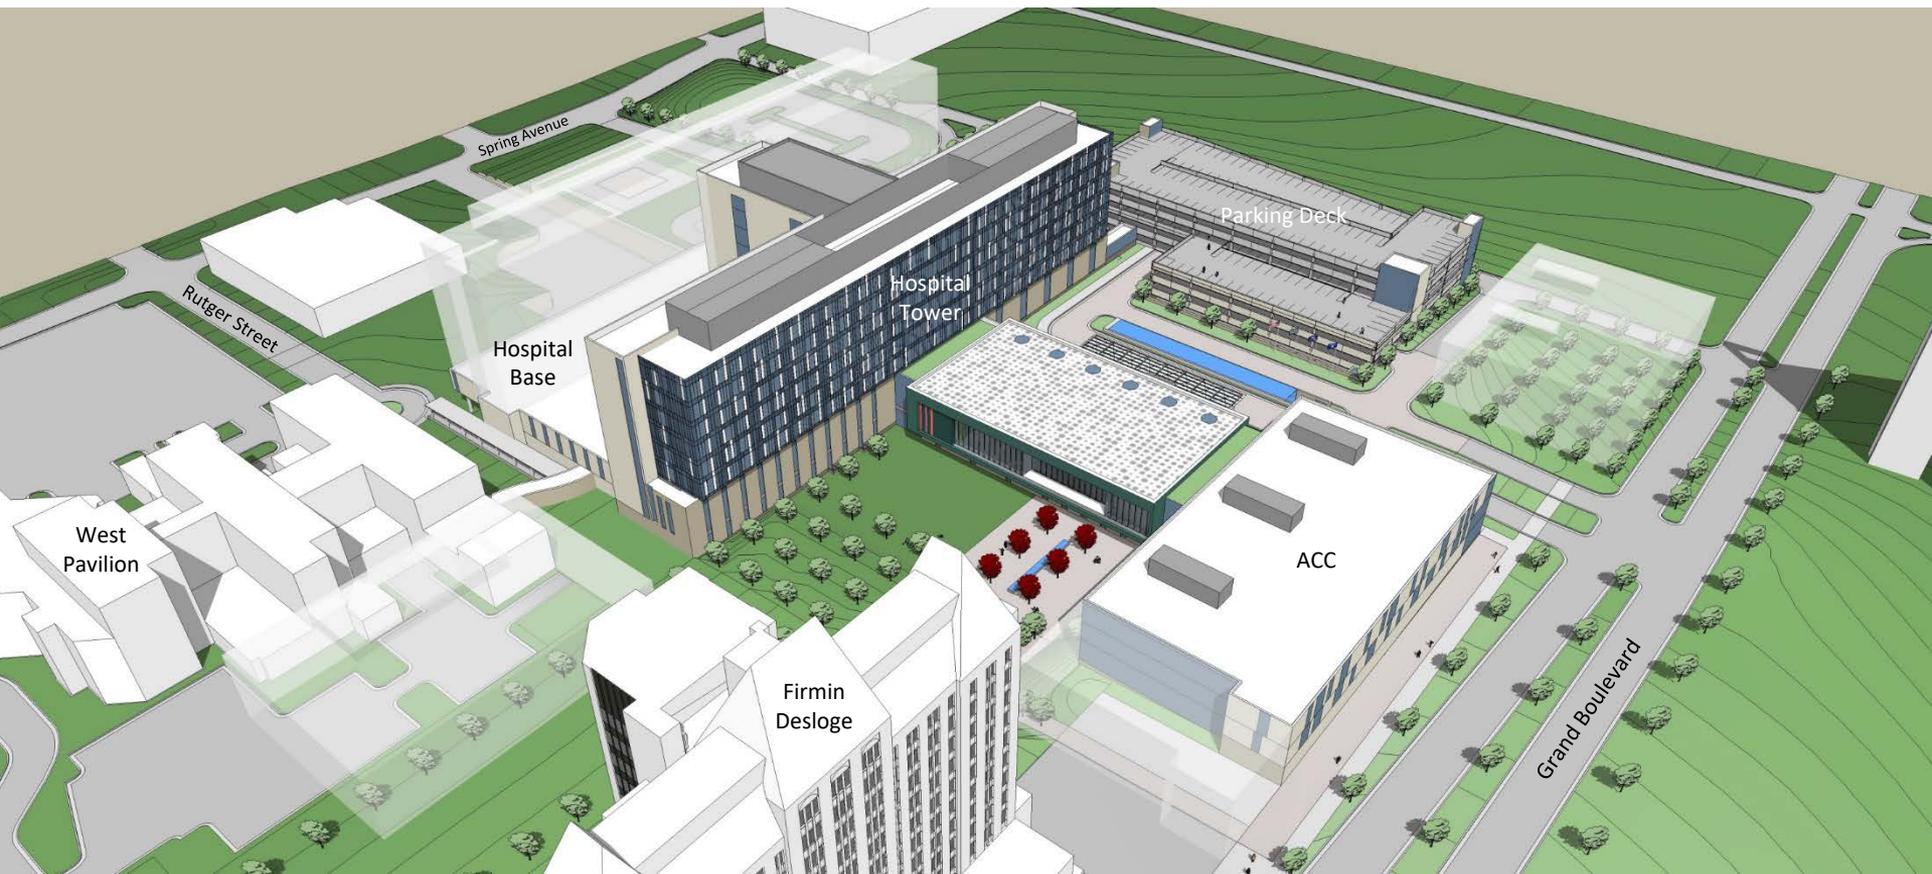

- 10 Level Hospital
- ACC: 4 levels
- Parking garage: 857 spaces
- ED parking : 100 spaces

17 Acres

316 Beds

Campus View

Saint Louis University Hospital

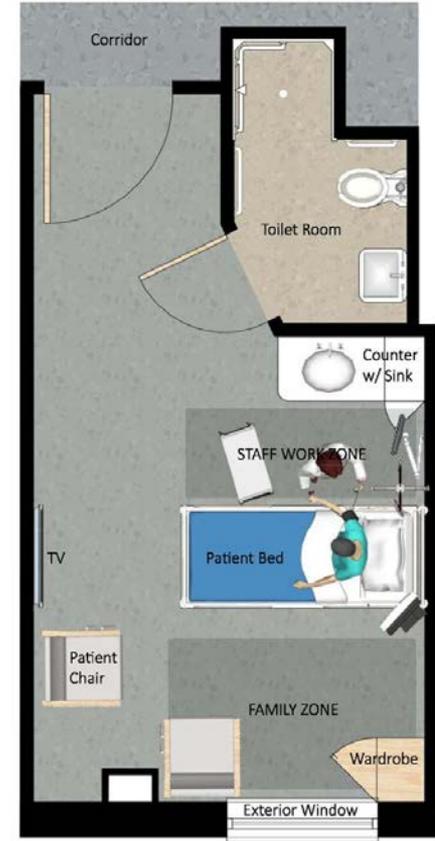

Existing Care Models

SSM Patient Rooms (2006)

Room: 220 SF
Toilet: 40 SF
Total SF: 260 SF

SSM Patient Rooms (2009)

Room: 279 SF
Toilet: 55 SF

Total SF: 334 SF

SSM Patient Rooms (2014)

Room: 248 SF
Toilet: 36 SF

Total SF: 284 SF

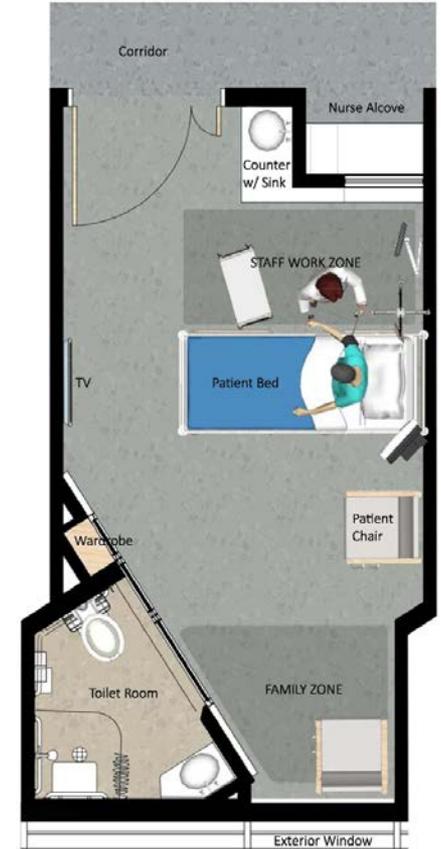

SSM Patient Rooms (2017)

Room: 225 SF
Toilet: 35 SF

Total SF: 260 SF

Guiding Principles

Develop the campus facilities and support the missions of exceptional health care services, world class health professionals education and research.

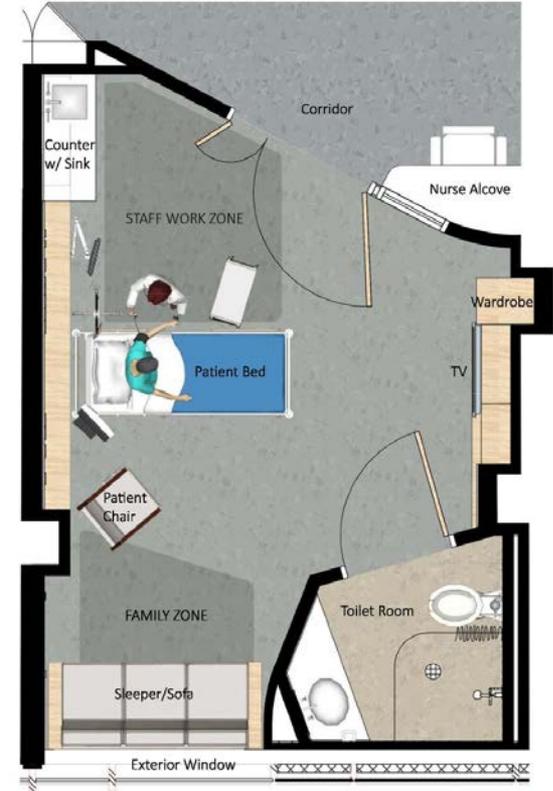

Excellence
Compassion
Community
Respect
Stewardship

SSM SLU Hospital

Room: 244 SF
Toilet: 37 SF

Total SF: 281 SF

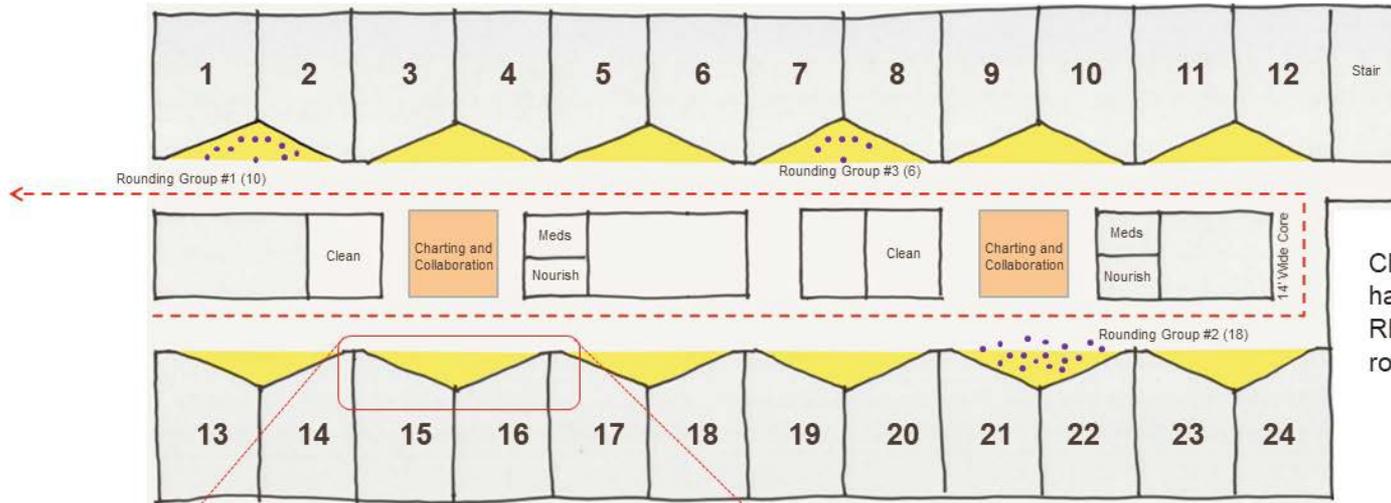

Existing Care Models at SLU: Planning for a Better Experience

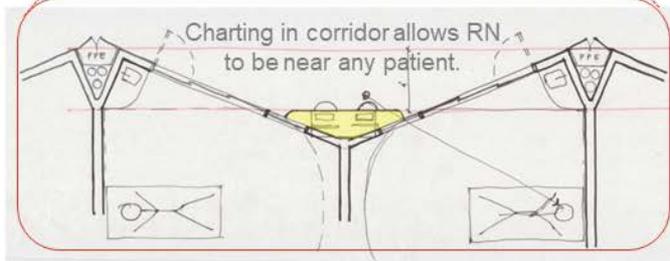

- Current State of Rounding Experience
 - Disruption
 - Disengagement
- Lack of visibility to patients

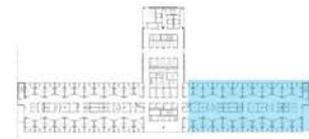

Charting in the hall embeds the RN with the rounding teams

“We don’t work like a community hospital, we work as a team with learners by our side.”

Typical Unit

Mirrored Rooms

Human Experience

- Mirrored rooms may increase sound transmission between headwalls vs same handed room.
- Countermeasures will be required to mitigate this issue.

Clinical Outcomes

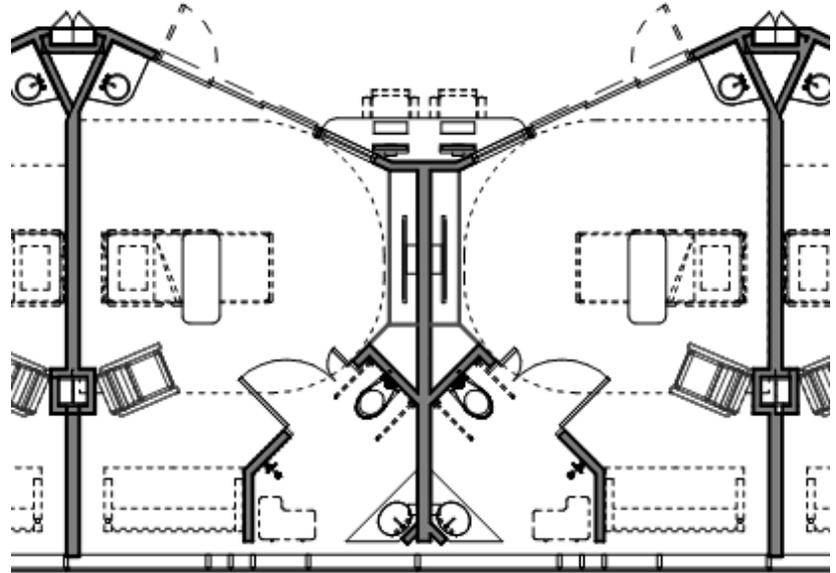

- Mirrored rooms allow standardization of the headwall. Research has shown this is key to impacting patient safety.

Operational Efficiency

- Standardization (even if mirrored) reduces cognitive load if staff can see the patient care environment upon entry into the room.

The Final Design: Rounding & Staff Work

- Alcoves to support rounding
- Mirrored rooms
- Corridor charting
- Two collaboration hubs in each 24-bed unit

Full-scale Mock Ups

The Final Design: Specialty Patient Populations

- Deployed step-down beds
- Specialty wards for Trauma, Neurology and Medical
- Created ACE unit (including 2 specialized delirium spaces)

428

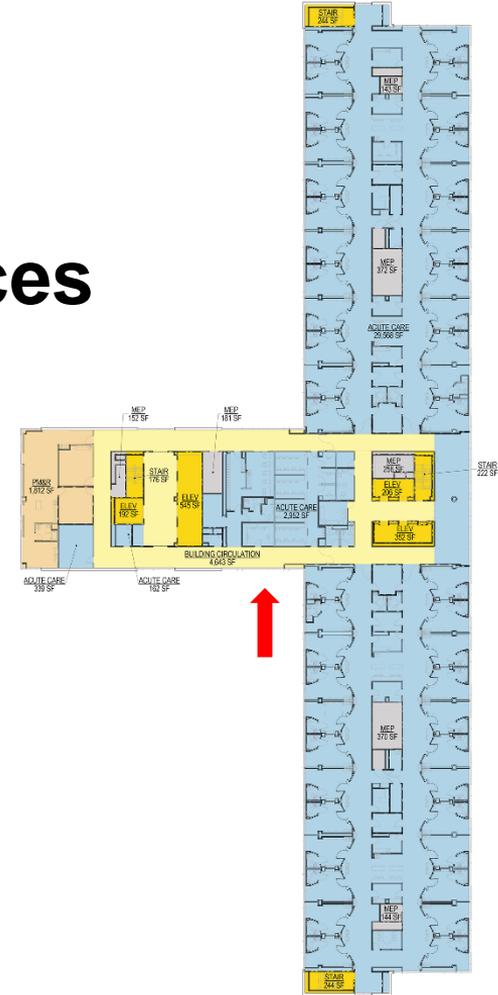

The Final Design: Classroom Spaces

- Teaching spaces on each floor to support
- Requirement for dedicated documentation space
- Researched best in class academic medical centers
 - 1000+ SF dedicated education space/acute care nursing unit
 - AMC benchmark range is 780 SF – 1,290 SF/ nursing unit

U40 List: Healthcare Design's Best Under 40  

The U40 List is nomination oriented recognition to celebrate individuals making a significant contribution to the advancement of health facilities design. Each year up to two individuals will be selected to have their names added to the distinguished U40 List. The recipients will receive a travel stipend to attend the Summer I Leadership
