FEATURED SPEAKERS

Dr. Paul Biddinger is the Director of the Center for Disaster Medicine, and is Vice Chairman for Emergency Preparedness in the Department of Emergency Medicine at Massachusetts General Hospital (MGH) in Boston. He is an active researcher in the field of emergency preparedness and has lectured nationally and internationally on topics of preparedness and disaster medicine. Dr. Biddinger completed his undergraduate study in international relations at Princeton University, attended medical school at Vanderbilt University, and completed residency training in emergency medicine at Harvard.

Since 2013, **Akram Boutros** has piloted an unprecedented transformation of Cuyahoga County's public health care system. An internist with a 25-year record of successful hospital leadership at academic medical centers, community hospitals and specialty hospitals, Dr. Boutros cultivates personal relationships throughout the hospital system and the community along with a climate of personal excellence for everyone he works with. A graduate of St. John's University, SUNY Downstate Medical Center and Harvard Business School's Advanced Management Program, he has led organizations through strategic repositioning, operational redesign and more

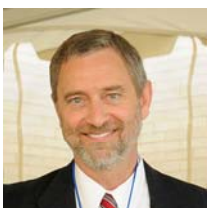

Brian Carlstead, a Director on Citi's not-for-profit health care investment banking team in Chicago, originates and leads capital markets transactions (taxable and tax-exempt) and M&A advisory assignments (mergers, acquisitions, divestitures and JV/JOA partnerships) for a wide range of not-for-profit health care providers located across the country. Brian has approximately thirteen years of not-for-profit health care investment banking experience. He graduated with a B.S.B.A., double majoring in accounting and finance from the University of Arizona. Brian is a member of the Little Company of Mary Hospital (IL) finance committee.

Doug Erickson currently serves as the CEO of Facility Guidelines Institute (FGI), a not-for-profit organization responsible for producing the Guidelines for Design and Construction of Health Care Facilities and whose mission is to produce consensus-based guidelines in healthcare. He is also a senior advisor to Specified Technologies, Inc., the premier firestop authority, providing consultation and strategic leadership on the health care built environment. Doug provides expertise in healthcare facilities planning, design and construction with more than 40 years of industry experience.

Michael Irwin is a Director in the not-for-profit health care group at Citigroup, a global financial services firm based in New York City. He has served as an investment banker and trusted advisor to many prestigious academic medical centers and health care systems over his thirty year career. He serves as a trustee of the Atlanta-based humanitarian aid organization MedShare International and One Brooklyn Health. Michael received his bachelors degree in economics from Providence College and master of business administration degree from Pace University.

Dr. Kelly is the Professor of Neurology at the University of Colorado School of Medicine and Executive Director of the Marcus Institute for Brain Health (MIBH). His immediate past position was Director of the National Intrepid Center of Excellence (NICoE) at Walter Reed National Military Medical Center in Bethesda, MD. In this role, Dr. Kelly was frequently called upon by leaders in the Military Health System in the Pentagon, at US Congress, at the Department of Veterans Affairs and at numerous military facilities in the continental US and abroad. He traveled to Afghanistan twice to advise and assist in the care of TBI patients at military hospitals and forward operating base medical units.

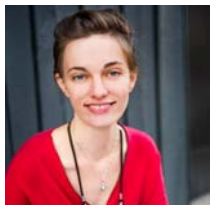

Bryan Langlands from NBBJ is an accomplished health care programmer, planner, and designer of academic medical centers, specialty centers, and community hospitals. His list of clinical and research clients includes NYU Langone Medical Center, Mt. Sinai Health System, University of Pennsylvania Medical Center, Children's Hospital of Philadelphia, University of Rochester Medical Center, and Vanderbilt University Medical Center. Bryan was involved with a number of sub-committees which worked on the 2014 FGI Edition. He is currently a member of the 2018 Health Guidelines Revision Committee of the Facility Guidelines Institute

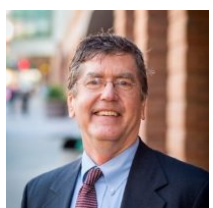

FEATURED SPEAKERS

Ellen Taylor brings more than 25 years of experience in architecture, research and business to our research team. A registered architect and AIA member, she has been influential in many research efforts ranging from guiding individual Pebble Project Partners to supporting grant-funded initiatives such as programs with the Agency for Healthcare Research and Quality (AHRQ) and the Kresge Foundation. Ellen serves on the Facility Guidelines Institute Health Guidelines Revisions Committee (leading the 2014 Safety Risk Assessment subgroup), the Environmental Standards Council (ESC) and facilitates direction for the CHD Research Coalition volunteers.

Carrie Shaw turned passion into a company, Embodied Labs, which is dedicated to revolutionizing the way health care providers, caregivers, and patients learn about human health through virtual reality storytelling. Following her graduation from the University of North Carolina at Chapel Hill with a B.S. in Public Health, Carrie joined the Peace Corps as a Health Education volunteer in the Dominican Republic, where she taught reproductive health to youth and worked as a medical translator. Carrie has a Masters of Science in Biomedical Visualization at the University of Illinois Chicago, where she met two of her fellow Embodied Labs co-founders.

David Sine is the Chief Risk Officer for the Veterans Health Administration's Office of Quality Safety and Value and a member of the Board of Directors of the American Society of Hospital Risk Managers. He earned a bachelor's degree in design from the School of the Art Institute of Chicago while studying at the University of Chicago and a Master's degree in Health Policy and a Doctorate in Biomedical Ethics from the Stritch School of Medicine at Loyola University. David has extensive leadership experience in military, private, and acute care settings as well as experience in both academic and organizational settings.

Brigadier General (ret.) Loree Sutton is the Commissioner for New York City's Department of Veterans Services. Sutton was first appointed by New York City Mayor Bill de Blasio as Commissioner to the Mayor's Office of Veterans' Affairs (MOVA) in September 2014. MOVA became the New York City Department of Veterans Services (DVS) in July 2016. In Sutton's culminating military assignment, she served as Founding Director of the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury (DCoE) from 2007 to 2010. Sutton co-founded Threshold GlobalWorks in 2011 and served as Co-Director until August 2014. Before assuming DCoE directorship, Sutton commanded the Carl R. Darnall Army Medical Center at Fort Hood, the nation's largest power projection military installation.

Dave Vincent is a Principal at HKS, Inc. He has 33 years of experience including design and construction documentation of major healthcare projects. Through his award-winning work on Washington Hospital Center ER One, Dave has experience in contingency planning and designing for event-based medical consequences. Dave has written for several healthcare related publications, been a guest instructor at several universities, spoken at national conferences and is involved with ongoing research initiatives.
