

From Fires to Floods: When Natural Disasters Result in Cultural Resource Disasters

PLAN (BEFORE)

- 1. Identify Vulnerabilities**
- 2. Assess potential impact on Character Defining Features**
- 3. Know your building/site**
 - Locate shut offs
 - Identify possible hazardous materials
 - Mark underground utility locations
- 4. Documentation (and store safely!)**
 - Plans/historic documents
 - Photos/Videos
- 5. Create a Maintenance Plan (and follow it!)**
 - Identify Critical Systems
 - Prioritization
 - Develop a Contact list
- 6. Ongoing Monitoring – to Prevent/Minimize damage**
 - Check Drainage paths
 - Clearing vegetation/debris

Tips/Strategies

From Fires to Floods: When Natural Disasters Result in Cultural Resource Disasters

PREPARE (DURING)

1. Develop a contact list – who are you going to call?
2. Plan for "On the Ground" reconnaissance
3. Protection (as possible as safety allows)
 - Boarding up/
 - Turning off utilities

RECOVER (AFTER)

1. Assess and "Safe" your building
2. Prioritize Repairs/Work Needed
3. Install Emergency Stabilization Measures
4. Apply Lessons Learned (aka Lather/Rinse/Repeat)

Tips/Strategies

Sperry Chalet Fire, 2017
Glacier NP

Scotty's Castle Flooding 2015
Death Valley NP
