HALF MOON BAY LIBRARY

Noll & Tam worked with the City of Half Moon Bay on the design of a new 22,000-square-foot library that replaced an existing 7,285-square-foot facility. The library, a regional branch of San Mateo County Libraries, is a hub of community activity that caters to all age ranges and diverse user needs. Noll & Tam's design honors the coastal and agricultural roots of the community, while serving current and future technology needs. The library features daylit interior spaces, outdoor reading plazas, acoustically separated areas for teen activities, and a flexible maker space. The library opened to great celebration in August 2018.
