

Preserving the Recent Past 3

March 13–16, 2019

The Preserving the Recent Past 3 conference in Los Angeles will offer a national forum to share the latest strategies for identifying, protecting, and conserving significant structures and sites from the post-World War II era.

In concurrent presentation sessions, plenary talks, a pre-conference symposium, and tours, Preserving the Recent Past 3 will build upon the groundbreaking prior conferences – Preserving the Recent Past (1995) and Preserving the Recent Past 2 (2000) – to address key issues in the preservation of modern historic resources. We hope you'll join us in L.A.
