PROGRAM DESCRIPTION:

The purpose of this Grant is to support members seeking to build on their expertise as leaders and create a larger network of leadership opportunities for members in our community. Building a stronger and larger network of AIA member leaders means that we are better prepared to become involved in political issues affecting community planning and development or serve as spokespersons for issues important to the designed environment and quality of life in communities. Most important, more AIA members trained as leaders means they can bring meaningful insight as mentors to identify and support developing opportunities for more AIA members to participate in community based leadership programs.
