

2012

PUBLIC ARCHITECTS WORKSHOP

May 16, 2012 | Washington, D.C.
Washington Convention Center, Room 207B
Rona G. Rothenberg, FAIA, Chair, 2012 Workshop

Design Excellence in Public Architecture: Federal-State-Regional-Local and Beyond

SCHEDULE OF EVENTS

7:00 AM-8:00 AM

Registration and Breakfast

Opening remarks: Lane Beougher, AIA Chair PAAG 2012

8:00 AM-9:00 AM

Introduction/Business: Rona G. Rothenberg, FAIA Vice-Chair PAAG 2012

The U.S. Capitol Complex: Historic and Modern

Stephen Ayers, FAIA, Architect of the Capitol

<i>Theme 2: FEDERAL ARCHITECTURE</i>	<i>Theme 2: STATE & REGIONAL ARCHITECTURE</i>	<i>Theme 3: LOCAL ARCHITECTURE OF CITIES, TOWNS, UNIVERSITIES & BEYOND</i>
--	---	--

9:15 AM-10:15 AM

GSA Design Excellence: Case Studies from the Federal Court Building Program

Hon. Celeste Bremer, Assoc. AIA, ABA, David Insinga, Susan Oldroyd, FAIA, LEED AP

Emerging Themes in Public Buildings Projects: Sustainability, Austerity, and Public-Private Partnerships

Frank J. Greene, FAIA, Elizabeth Minnis, Claudina Sula, AIA, OAA, RAIC, Ronald Younkens, Esq.

Serving Our Neighbors: Deanwood Community Center and Stoddert Elementary School, Washington, DC

Matthew James Bell, AIA, Isaac S. Williams, LEED AP BD+C

10:30 AM-11:30 AM

Motivating Your Interns with Sustainability Challenges

Paula Loomis, FAIA, LEED AP BD+C, Lyndsey Pruitt

Designing the Airport of the Future

Curtis Fentress, FAIA, RIBA

A Global Perspective on the Architecture of Democracy: Public Buildings in Israel

Yael Kinsky, AIA, ADA Israel, IAIA, IAUA

11:30 AM-1:00 PM

Lunch *(no speaker for first 30 min.)*

Closing/Business: Rona G. Rothenberg, FAIA Vice-Chair PAAG 2012

How Design Excellence Is Making New York City A Successful 21st Century City

David Burney, FAIA

1:00 PM-5:00 PM

GSA, the Moynihan Symposium for Public Design

6:00 PM-8:00 PM

Public Architects Workshop Reception

United States Botanical Gardens (directions in back of program)

ADVISORY GROUP (2012-2013)

PUBLIC ARCHITECTS KNOWLEDGE COMMUNITY

CHAIR

Lane Beougher, AIA, State Architect, State of Ohio

Lane J. Beougher, AIA, FCSI, LEED AP BD+C, was appointed state architect on June 2, 2011, after serving five months on an interim basis. Lane joined the State Architect's Office (SAO) in 2005, most recently as Program Services Manager, and led the Energy Services team from April 2007 through September 2009. Prior to coming to SAO, Lane accumulated 25 years of facilities planning, architectural design, specifications preparation, and construction administration experience. Prior to his public sector experience, he was an associate and senior project architect with the Columbus office of Braun & Steidl Architects, an AIA Ohio Gold Medal firm, and graduated from The Ohio State University with a bachelor of science in architecture. Lane is a member of the American Institute of Architects, a former president of its Columbus Chapter, and currently serves as its delegate to the AIA Ohio Board and is vice chair of the national Public Architects Committee. A Fellow of the Construction Specifications Institute, Lane serves on the national Board of Directors as its Secretary. He is also a LEED Accredited Professional and has been involved in sustainable design and construction strategies since 1996.

VICE CHAIR

Rona G. Rothenberg, FAIA, California Court Building Program

Rona G. Rothenberg, FAIA, is a Senior Manager for the statewide Design and Construction Team for the Judicial Council of California-Administrative Office of the Courts' Office of Court Construction and Management. A founding member of the \$6.9 Billion capital building program for the California courts, Ms. Rothenberg has been with the AOC since late 2001. Rona, a licensed architect who holds a B.S. degree from the Pennsylvania State University Magna Cum Laude and a Master of Architecture degree from U.C. Berkeley, is a member of the College of Fellows of the American Institute of Architects. She has served as a leader in design and construction projects for large institutions, as a client, for the past 25 years, during which time she has led teams for over 100 capital projects. In addition to her current senior management role serving the California courts, her long-term work in institutional project management has included senior staff positions with the School of Medicine at Stanford University, as the Senior Project Manager for Allianz AG/Fireman's Fund's North American Real Estate Operations, and with Kaiser Permanente's Northern California team. A long-time resident of the San Francisco Bay Area, she has also been involved in pro-bono design projects for local nonprofit organizations since 1985. Rona is passionate about design, construction and management of beautiful, sustainable and lasting institutional buildings "from the inside out," from within institutions, and she writes and lectures frequently on this subject. On a personal note, Rona has been married to Yehuda Ben-Israel, a regional manager for the Social Security Administration and a Vietnam-era veteran, for 33 years, and is the proud mother of Sarah, a science and math teacher, David, an art and wine industry consultant. In her minimal spare time, she enjoys cooking, music, gardening, art, gemology, reading and walking Tevi, her pedigreed English Springer Spaniel.

Vergel Gay, AIA, Vergel Gay & Associates

As a public architect, Vergel L. Gay, Jr. has provided leadership in the corporate, municipal and higher education arenas. He is currently the CEO of Vergel Gay & Associates. For the past five years, he has served as the chief facilities officer for the Texas A&M University System, where he was responsible for the planning, design and construction of a \$2.5 billion capital plan for 11 universities and a Health Science Center.

He has also held positions as associate vice chancellor for system facilities and university system architect for the University of North Texas System, executive director for facilities planning and construction at the University of Houston System, chief architect for the city of Houston, senior project architect for the Texas A&M University System and area manager-architecture for Southwestern Bell Corporation.

He is both a licensed architect and interior designer and holds memberships in the American Institute of Architects, the Texas Society of Architects, and the National Organization of Minority Architects.

David Trevino, AIA, City of Dallas

David Treviño is a registered architect, LEED A.P., and has over 20 years experience as an architect. He serves as a Sr. Program Manager in Facilities Architecture & Engineering for the Dept. of Public Works at the City of Dallas. Over the last 10 years he has been responsible for the implementation of two major capital bond programs. He is responsible for overall management for the planning, budgeting, scheduling, A/E selection, contractor selection, design, and construction of public capital projects such as law

enforcement, libraries, cultural, public safety, and other municipal buildings in the City of Dallas. He also coordinates, implements and manages the activities of project managers, consultants, and contractors to ensure quality overall project management, organization, and construction. He serves on the Board of Directors of the USGBC – North Texas Chapter and the BIM Texas Alliance.

He is dedicated to achieving high quality and high performance design of public facilities. Projects under his management have received several design awards including the 2010 U.S. Dept. of Housing & Urban Development, Special Housing Design Award and the Rudy Bruner Award and 2011 Gold Medalist for the Homeless Assistance Center “The Bridge”. He received his M. Arch degree from Texas A&M University. He is active in his community and serves as a Red Cross volunteer. He is married to his wife Christina and has 2 daughters and two grand children.

Edmond Gauvreau, AIA, U.S. Army Corps of Engineers

Ed Gauvreau, AIA, MPA is the Chief, Planning Branch for the Installation Support Community of Practice (ISCoP), Directorate of Military Programs, Headquarters, U.S. Army Corps of Engineers (HQUSACE). He oversees a 10-person team responsible for the management and development of Army installation support

programs, including master planning, force development, critical infrastructure protection, and military construction project development software. Ed is also the primary USACE liaison to the Office of the Assistant Chief of Staff for Installation Management, plus maintains substantive relationships with other Army and Defense agencies.

His most recent position at HQ USACE was as program manager in the Installation Support Branch, ISCoP, with concurrent duties as staff director for the Army's Career Program 18, Engineers and Scientists (Construction), overseeing career development and training for over 14,000 civilian employees throughout the Army. He also served as Executive Assistant to the Deputy Director of Military Programs providing direct support to the senior career official for the Corps of Engineers in managing execution of a \$10 billion world-wide design and construction program.

Mr. Gauvreau started his federal career with the Army in 1981 as an architect at the Directorate of Public Works, Fort Stewart, Georgia. He has held increasingly responsible positions at the Patuxent Naval Air Test Center, Maryland; Detroit District, U.S. Army Corps of Engineers; Aberdeen Proving Ground, Maryland; and the Food and Drug Administration, Rockville, Maryland. Mr. Gauvreau returned to USACE as a project director for the Corps' Medical Facilities Center of Expertise, responsible for over \$500 million in health care facility projects world-wide.

Mr. Gauvreau was born in Petoskey, Michigan and grew up in Mount Clemens, Michigan. He graduated with a Bachelor of Architecture degree from the University of Notre Dame, and earned a Master's in Public Administration from the Key Executive Leadership MPA program at American University. Ed holds licenses as a registered architect in Maryland and Michigan, and a Level III Facilities Engineering Army Acquisition Professional. He is a member of Pi Alpha Alpha, the national honor society for public administration. He has been a member of the American Institute of Architects (AIA) since 1986, and was selected to the Advisory Group for AIA's Public Architects Knowledge Community in 2011. He is married to Susan Mason Gauvreau, Ph.D., a special education specialist in the Montgomery County Public Schools, and is blessed with a daughter, Nicole, who is a high school junior and searching for colleges. They reside in Dayton, Maryland with a chocolate lab, beagle, gray tabby cat, a deer herd and other critters on 1.5 acres. His non-working interests include running, cycling, reading, browsing the Web, music, architecture, politics, and all things Notre Dame (too much according to my family!).

SPEAKER BIOS

DESIGN EXCELLENCE IN PUBLIC ARCHITECTURE: FEDERAL-STATE-REGIONAL-LOCAL AND BEYOND

Stephen T. Ayers, FAIA, LEED AP
Architect of the Capitol, Washington, States/Provinces

As Architect of the Capitol, Ayers is responsible for facilities maintenance and operation of the historic Capitol Building, the care of 460 acres of grounds, and operation and maintenance of 17.4 million square feet of buildings including the House and Senate Office Buildings, Capitol Visitor Center, Library of Congress Buildings, the U.S. Supreme Court Building, the Thurgood Marshall Federal Judiciary Building, and other facilities. Ayers completed his Bachelor of Science degree in Architecture at the University of Maryland and received his Master's of Science degree in Systems Management from the University of Southern California. After attending Officers Training School at Lackland Air Force Base in San Antonio, Texas, Ayers was commissioned as an officer in the U.S. Air Force and assigned to Edwards Air Force Base. Ayers was awarded the Meritorious Service Medal and after five years of active duty, decided to pursue a career in public service in another way. After working in the architectural and engineering community in the Washington, D.C., area, Ayers joined the Voice of America as a General Engineer in 1991. In 1992, he transferred to Rhodes, Greece, to lead design and construction efforts at several Voice of America sites in Greece and Germany. Ayers returned to the U.S. in 1997 and joined the Architect of the Capitol as an Assistant Superintendent for the Senate Office Buildings. In 1999, he was promoted to Deputy Superintendent. He was then promoted to Superintendent of Library Buildings and Grounds in 2002. In October 2005, Ayers was appointed as Acting Deputy Architect/Chief Operating Officer. In March 2006, he was selected as Deputy Architect/Chief Operating Officer. In February 2007, Ayers began serving as Acting Architect until his appointment as Architect of the Capitol in May 2010.

Susan K. Oldroyd, FAIA, LEED AP
Principal, AECOM, Kenwood, CA

Susan is a national courts practice leader with AECOM. She was the founding Chair of Sustainability Committee of the Academy of Architecture for Justice (AAJ), began the "Green Guide to Justice" effort while chairing the AAJ - San Francisco, and has presented the progress at conferences and the AIA national convention for the last 4 years. She received AIA Fellowship in 2009 in recognition of her expertise in design and planning of courts and Justice Facilities, and for her work on the California Trial Courts Facilities Standards. She is currently on the leadership committee of the AAJ - Bay Area and is chair of the Partners Committee of the national AAJ. She received a Bachelor's from the University of Washington and a Masters in Architecture from Columbia University.

**Hon. Celeste F. Bremer, Assoc. AIA, ABA
U.S. Magistrate Judge, U.S. Courts, Des Moines, IA**

Judge Bremer, a U. S. Magistrate Judge, Southern District of Iowa, is liaison for court construction projects, and has been involved with several major renovations of 1930-style courthouses. She teaches at the Federal Judicial Center, trains mediators nationally and internationally, and teaches Organizational Leadership at Drake University. She has her doctorate in Adult Education from Drake University, and her law degree from the University of Iowa, College of Law. Prior to being appointed to the bench in 1985, she was a prosecutor, in private practice, in-house counsel for Deere & Company and Economy Forms Corporation. Her caseload includes civil and criminal matters, along with mediation and court administration.

**David Insinga
U.S. General Services Administration, Washington DC**

David Insinga serves as zone director of GSA's Rocky Mountain and Pacific Rim regions for the Office of Design and Construction. As director he oversees planning, design, and construction of all capital projects in the western United States, which include new construction and modernizations of United States courthouses, federal buildings, and land ports of entry. Prior to joining GSA, Insinga was a program manager at the Administrative Office of the United States Courts. He worked as an architect in the private sector until 2002, when he joined the federal workforce. Insinga is a registered and NCARB-certified architect, and a member of the American Institute of Architects. He graduated from Virginia Tech in 1981 with a Bachelor of Architecture.

**Frank James Greene, FAIA
Principal, RicciGreene Associates, New York, NY**

Frank J. Greene, FAIA plans and designs civic buildings that are diverse in their expression, their imagery defined by the circumstances of place and purpose. A principal of RicciGreene Associates, his body of work is international in scope both as lead designer and as collaborator with other designers on prominent courthouse projects, including numerous GSA Design Excellence projects. He is a founding member of the NY Chapter AAJ, and a frequent speaker and writer on justice topics. He serves the AIA College of Fellows as New York State Representative, and as a former member of the New York Chapter Fellows Committee. He is a graduate of the Howard University School of Architecture and Planning, where he received the Gold Medal for Design in 1978. As a founding member of the Sustainable Justice committee of the AIA AAJ, Frank has led a number of collaborative workshops defining the need for a white paper entitled *Sustainable Justice 2030: Green Guide to Justice*, for which he served as editor. He has served as moderator for panel presentations of the work of the SJ committee at two AIA conventions and three AAJ conferences. He wrote the facilities portion of a recently published white paper for the Department of Justice National Institute of Corrections entitled *Greening Corrections: People, Processes, Policy*, and participated in a webcast presenting its findings.

Elizabeth A. Minnis, AIA
Deputy Commissioner, Office of Planning, Design and Construction, Commonwealth of Massachusetts Department of Capital Asset Management, Boston, MA

Elizabeth Minnis oversees the Commonwealth's \$600 + million capital program of planning, design and construction for Higher Education, Public Safety, Judiciary, Human Services and other executive branch agencies and state offices. With a staff of over 100 architects, engineers and construction professionals, the Office of

Planning, Design and Construction manages teams of A/E firms, contractors, subcontractors and construction managers to developing a wide range of projects from strategic facilities and campus master planning, repairs, renovations, and energy efficiency upgrades to major new construction. Liz serves the AIA as a the 2012 Chair of the Academy of Architecture for Justice (AAJ) Advisory Group, and as AG liaison to the Conference Planning committee was responsible for a successful AAJ conference held in November 2010 in conjunction with Build Boston that attracted over 300 attendees. She has moderated and delivered presentations on a number of topics related to both sustainability and justice planning issues. She is a founding member of the New England component of the AAJ, and has organized a number of seminars and presentations at the local chapter headquarters. She is a graduate of the Boston Architectural College and Boston University.

Claudina Sula, AIA, OAA, RAIC
Adamson Associates Architects
Toronto, Ontario Canada

Claudina assumes a senior role in leading large, complex commercial and institutional projects in Ontario. Claudina brings a wealth of professional expertise to the firm, particularly with institutional and commercial projects, civic facilities, residential and educational buildings. She has worked on major projects in Ontario, New York and the United Arab Emirates. Prior to joining Adamson Associates, Claudina was a principal at Perkins Eastman/Perkins Eastman Black from 2004 – 2007, where she worked on a number of institutional projects including numerous courthouse, health care, and public school projects. Claudina was a Principal at WZMH Architects from 2002 to 2004. She joined the firm in 1985, became an Associate in 1993, a Practice Manager in 1996, an Associate Principal in 2000, and a Principal in 2002. Claudina holds a Master of Architecture from the State University of New York at Buffalo and a Bachelor of Technology in Architectural Science from Ryerson Polytechnic Institute. She has garnered awards for design excellence and for academic achievement. Claudina is a member of the Ontario Association of Architects (OAA), the Royal Architectural Institute of Canada (RAIC), the American Institute of Architects (AIA) and the New York State Board of Architects. She is also certified by the National Council of Architectural Registration Boards (NCARB). Recently Claudina has been working with the Provincial agency of the Ontario Government - Infrastructure Ontario - on several capital infrastructure projects which are being procured using a Public Private Partnership model. Many of these projects use a Design Build Finance and Maintain procurement strategy.

Ronald Paul Younkings, Esq.
New York State Office of Court Administration, New York, NY

Ron Younkings is the Chief of Operations of the New York State Office of Court Administration, where his responsibilities include oversight of the court system's budget, automation New York's

court facilities program. Over the past five years, more than 15 new courthouses have been completed in New York State, at an aggregate cost of more than \$1.4 billion. Recently completed projects range from a one courtroom city court in upstate New York to an 84 courtroom high rise facility in Brooklyn. In each of these projects, Mr. Younkins has worked closely with local governments, which, under New York State law, are responsible for providing facilities for the State courts. Prior to joining the Office of Court Administration in 1996, he practiced law both in the private and public sectors. In addition, since 1993, he has been an adjunct professor at Fordham University School of Law.

Matthew James Bell, AIA
Principal/Professor of Architecture
EE&K-Perkins Eastman Architects
University of Maryland School of Architecture, Planning and
Preservation, Washington, DC

Matthew Bell is an architect who specializes in large-scale urban design and civic architecture. In addition to teaching in the architecture program at the University of Maryland, Bell has been active in the profession with projects ranging in scale from a new town in Turkey, to leading urban design efforts for numerous large sites in the Baltimore/Washington, DC region, including the vision for the historic “Black Broadway” along U Street NW, the redevelopment of the McMillan water filtration site on North Capitol Street and campus master plans for George Washington University. Bell was the first Community Architect at King Farm, a 440 acre new urban community in Rockville, Maryland, which was awarded a Charter Award from the Congress for the New Urbanism. Bell has served as President of the Neighborhood Design Center in Baltimore and Prince George’s County, Maryland, assisting community groups in matters of design and planning and as Director and conference chair of the Northeast Regional meeting of the Mayor’s Institute for City Design. He has participated as a juror for the Biennale of Venice (Italy) and his work has been exhibited at the Triennale di Milano. His University of Maryland studio has won Charter Awards from the CNU and placed in the ULI/Gerald Hines Student Urban Design Competition. Bell’s professional has been awarded a 2007 National AIA Honor Award in Urban Design for Crown Farm in Gaithersburg, MD and the School Without Walls Senior High School in Washington, DC was awarded the grand prize in the National Learning by Design competition. Also, the Deanwood Community Center was recently presented with a 2011 “Vision Award” by the Committee of 100 in Washington, DC. Bell is vice president of the Restoring Ancient Stabiae Foundation, principal in the Washington, DC office of EE&K-a Perkins Eastman Company, and Professor of Architecture at the University of Maryland.

Isaac S. Williams, LEED AP BD+C
Assistant Professor
University of Maryland, States/Provinces

Isaac S. Williams, LEED AP BD+C, is an Assistant Professor at the University of Maryland, and a Senior Designer and Planner with Fielding Nair International. As an architectural educator and practitioner, Isaac is focused on the design of great learning environments. At the University of Maryland, Isaac teaches undergraduate and graduate design studios, including a graduate studio on the design of schools that has collaborated with the College of Education. His graduate seminar “Learning Places” explores the potential of architecture as a form of pedagogy in places of learning such as schools, museums, and memorials.

Isaac continues to practice while teaching and has been a design leader on school projects in Azerbaijan, Australia, the Cayman Islands, Belgium, and throughout Canada. Prior to his academic appointment, Isaac was an associate with Ehrenkrantz Eckstut & Kuhn Architects in New York, and Washington, DC. Isaac has served as juror for the American Institute of Architects Honor Awards, the National School Board Association's "Learning by Design" awards, DesignShare's international awards program, and has lectured on school design and presented his work nationally and internationally.

Paula Loomis, FAIA, LEED AP BD+C
US Army Corps of Engineers, Washington, DC

Paula J. Loomis, FAIA, LEED AP BD&C is the Sustainability Program Manager for the United States Army corps of Engineers. She has 32 years in federal service with the Air Force, Army, Navy, and GSA. She was the Command Architect for Air Combat Command and Deputy in the Air Force's Base Transition Office for BRAC 2005. She is Colonel in the US Air Force Reserves. In the private sector, she headed up the EDAW Virginia Beach office and taught architecture at Hampton University. In the AIA, she served as the Hampton Roads Chapter President, a Virginia Society Board Member, Chairman of the Public Architects Knowledge Community Advisory Committee, a member of the Board Knowledge Committee and was elevated as a Fellow in the College of Fellows. She served on the selection committee for the AIA College of Fellows from 2008-2011. In addition to the AIA, she is a member of the American Planning Association, the Congress for New Urbanism and a Life Member of the Society of American Military Engineers. She holds a Bachelor in Environmental Design, Master of Architecture, Master of Construction Management, MBA, and is a PhD candidate in the Urban Studies program at Old Dominion University (ABD) as well as graduating from the Air War College, Armed Forces Staff College, Air Command and Staff College, AF Squadron Officer School and the Advanced Course at the Joint Forces Staff College.

Lyndsey D. Pruitt
US Army Corps of Engineers, Washington, DC

Lyndsey N. D. Pruitt is in charge of Sustainability Training for the US Army Corps of Engineers. She is a graduate of Tulane University's Architecture Program and Georgia Technical Institute's Construction Management Master's Program. She has served previously with the Corps of Engineer's Resident Office at Fort Benning in Georgia.

Curtis Fentress, FAIA, RIBA
President and Principal-in-Charge of Design
Fentress Architects, Denver, CO

Curtis Fentress, FAIA, RIBA, was honored by AIA with the highest award for public architecture in 2010, the Thomas Jefferson Award. A native of North Carolina, Curt graduated in 1972 with a Bachelor of Architecture degree from North Carolina State University's College of Design. He finished among the top of his class, and was recognized with the Alpha Rho Chi Medal—the highest honor bestowed on a designer by an architectural school. In 1972, he joined the firm of I.M. Pei and Partners in New York, followed by Kohn Pedersen Fox in 1977. While at KPF, he was awarded Building Design and Construction magazine's "Young Professional of the Year." Curt founded Fentress Architects in 1980.

Today, Fentress has 145 employees working from five international studios. Fentress Architects has won more than 385 distinctions for design excellence and innovation, and 35 national and international design competitions. The firm's award-winning portfolio focuses on civic architecture – including aviation projects, museums, government centers and convention centers throughout the U.S., Asia, and the Middle East. Fentress Architects has designed 91.6 million square feet of public space that serves 300 million people annually. Recognized as global leaders in airport terminal design, their projects include Incheon International Airport (“World’s Best Airport,” 2005-2011, Airports Council International) and Denver International Airport (“Best Airport in North America,” 2005-2009, Business Traveler magazine), among others. As a devotee of professional development and mentorship, Curt lectures widely and serves as a visiting critic at colleges and universities globally. For over three decades, Curt Fentress and his design team have focused on public architecture, applying the firm’s design expertise and resources to elevate the human experience in public buildings.

**Yael S. Kinsky, AIA, ADA Israel, IAIA, IAUA
Principal/Owner, Kinsky Architects and Urban Designers, Neve
Monosson, States/Provinces, Israel**

For the last 25 years Ms. Kinsky has a prosperous career and a successful private practice first in Los Angeles and then in Israel. Her career began as a design architect of residential and public buildings, and over the last 20 years has branched out into diversified projects for the private and public sector including: residential neighborhood design, rehabilitation of city centers, revival and rehabilitation of old neighborhoods, urban design and zone change, offices, and particularly public buildings. Ms. Kinsky is a well-known expert in the design of social architecture and public buildings such as: Medical Institutions, Health care Facilities, Educational Facilities, special projects for the Disabled such as rehabilitation and occupational centers, hostels, day care centers and projects for the aging communities. 2 years ago, Ms. Kinsky was awarded a prestigious and unique contract for architectural consulting services to the Israeli Ministry of Health, leading and guiding the design of all health care facilities in Israel. 5 years ago she was awarded a lucrative consulting contract for the Social Security government office in Israel.

This challenging endeavor offers Ms. Kinsky the opportunity to further advance the profession and encourage the adoption of higher standards and innovative ideas for health care design that are found abroad. EBD (Evidence-based design) is a significant tool Ms. Kinsky applies when it comes to changing existing design concepts. Ms. Kinsky was awarded First prize for the design competition of the Oncology Outpatient Department in Hadassah Hospital, JerUnited Stateslem and first prize of co-design competition for a Music school and community center in the city of Akko, Israel. Ms. Kinsky also served as a Jury chair and committee member for many design competitions such as: Educational Facilities – Students School design competition conducted by the Ministry of Education, Excellent Student competition in the Teknion 10 years in a row, Urban Design Competition – Joint venture of 2 associations, 3 years in a row. While maintaining her private design office, being also a consultant for the government, Ms. Kinsky was and still is exposed to hundreds of projects in different stages, contents, formulas, teams work, finances and results.

David Burney, FAIA
Commissioner, City of New York Department Design and
Construction, New York, NY

David J. Burney, FAIA was appointed Commissioner of the New York City Department of Design and Construction (“DDC”) in January 2004, by Mayor Michael R. Bloomberg. DDC manages capital projects for a variety of City agencies including the Departments of Transportation and Environmental Protection; and for the many cultural institutions such as libraries and museums that receive City capital funds. With Mayor Bloomberg’s support, David Burney launched a City-wide “Design and Construction Excellence Initiative” with the goal of raising the quality of design and construction of public works throughout New York City. Mr. Burney was educated at the Heriot-Watt University in Edinburgh and at the University of London. He was the recipient of the AIA NYC Chapter Public Architect Award in 1996, a Sloane Public Service Award in 2003, and the Center for Architecture Award in 2006. He was the recipient of a Thomas Jefferson Award in 2011.

RECEPTION

AIA PUBLIC ARCHITECTS AND AIA CORPORATE ARCHITECTS AND FACILITY MANAGERS

UNITED STATES BOTANICAL GARDENS

100 Maryland Avenue, SW
Washington, DC 20024

Join local and national PA and CAFM Knowledge Community members at a hosted reception. Enjoy food and drinks in this stimulating environment, and meet clients and practitioners in public and corporate architecture. A very limited number of buses (2) will depart from the Convention Center (tour departure area) between 5:30pm-5:45pm. Attendees are responsible for their own transportation at the end of the evening.

DIRECTIONS
